Saturday School Courses

CODING

An introduction to Computer Programming through Coding Activities.

Are you looking for one of the most popular programs around? **This is it! Saturday School's** innovative class for elementary and middle-schoolers teaches computer programming skills through a variety of coding activities using multiple coding programs. These fun classes are perfect for kids who have great imaginations, like figuring out how things work or simply love technology.

This program is for Elementary School students in grades 3 to 5 and Middle School students in grades 6 to 8.
