

# Saturday School Courses

# CODING

Join the Boolean Girl at **Saturday School's** Springbrook and Paint Branch High Schools for an innovative, hands-on coding and engineering program.

This program combines your child's creativity with a micro:bit microprocessor and Microsoft's MakeCode programming language to code, build, and invent!

This program is for Montgomery County Public School's Elementary School students in grades 3 to 5. Offered as a **5-week course**. There is limited availability for 15 students per session. Register Today!
